Read the Operator's Guide and watch the Safety DVD before driving. **BRP** highly recommends that all-terrain vehicle (ATV) drivers take a training course. ATVs can be hazardous to operate. For both ATVs and side-by-side vehicles (SSVs), the operator and passenger should wear a helmet, eye protection and other protective clothing. Respect the minimum age as required by law. For SSVs, fasten lateral net and seat belt at all times and passenger must be at least 12 years old and able to hold handgrips and plant feet while seated against the backrest. Never carry passengers on any ATV not specifically designated for such use. For ATVs, **BRP** recommends not to carry any passengers under the age of 12. However, users must always respect any applicable law establishing a minimum age for riding an ATV/SSV. Always remember that riding and alcohol/drugs don't mix. Never engage in stunt driving. Avoid excessive speeds and be particularly careful on difficult terrain. Ride responsibly. **BRP** urges you to "TREAD LIGHTLY" on public and private lands. Preserve your future riding opportunities by showing respect for the environment, local laws and the rights of others when you ride. Always ride responsibly and safely. Never carry passengers on any ATV not specifically designated for such use. Highly skilled operators under controlled conditions appear in this brochure. Do not attempt these manoeuvres if they are beyond your skill level. Pictures taken outward, on private land. **BRP** reserves the right, at any time, to discontinue or change specifications, prices, designs, features, models or equipment without incurring obligation. Some models depicted herein may include optional equipment or not be available in your country. Prices are based on Manufacturer Suggested Retail Prices. # SIZING CHART

**CHEST/BUST:** Measure under your arms, around the fullest part of your chest.

**WAIST:** Measure around your natural waistline, keeping one finger between the tape and body.

**GLOVES:** Measure palm width.

**HELMET:** Measure around your head at the temple above the eye brow.

## HOW TO MEASURE

For best results, have someone else take measurements. Measure body in underwear. Tape must be snug but not tight. If measurements fall between two sizes, order the larger size.

# TECHNICAL TERMINOLOGY

## WE KEEP YOU DRY

Respirative Performance Matrix or RPM coating exclusive to BRP Riding Gear. Delivers extremely high performance and durability for perfect climate control under even the most extreme conditions. Trademark waterproofness, windproofness and breathability required of BRP Riding Gear shell fabric developed for intensive use and demanding riders.

Same great RPM coating PLUS total seam and logo sealing. Also, added direct venting in strategic jacket areas for more efficient moisture management during intense activity.

## TEFLON

Teflon provides an invisible barrier around fabric fibers to repel water and stains. In addition to retaining its water shedding properties longer than standard Teflon, Teflon HT and HP are also even more resistant to soiling and staining without altering the fabric's colour, appearance, structure, texture and breathability. Teflon HT, good up to 20 washes and Teflon HP up to 30 washes compared to manufactured coatings washable only 1 to 5 times.

## HIPORA

Windproof, breathable and waterproof membrane that features unique polyurethane coating technology and delivers excellent moisture management.

## DWR

DWR stands for Durable Water Repellency. This treatment helps prevent the outer fabric surface from absorbing water, keeping the outerwear both light and comfortable.

## SEAM SEALING

Seams and embroidery can act as tiny entry points through which wind and water can infiltrate. That is why jackets and pants with RPM are critical seam and logo sealed. And Riding Gear with RPM Max are 100% seam and logo sealed for an even more comprehensive barrier from all the elements. The proprietary tape is also waterproof and breathable to fully seal the deal for complete performance.

## WE KEEP YOU WARM

**CRESTA BY PRIMALOFT**  
Primaloft Cresta offers warmth without weight and extra bulk. It is designed to keep you warm and comfortable throughout the day.

**PRIMALOFT ONE**  
Warmer wet or dry than any other synthetic insulation. The ultimate down-like microfiber insulation. Quick drying, soft, and breathable. Primaloft One is lightweight, compressible and thermally efficient.
